HIKING PLANET

"Build your future, on your own home ground."

BASED IN **RAITHAL VILLAGE**, UTTARKASHI · **UTTARAKHAND**, INDIA

WHY HIKING PLANET

Work where you belong

Most careers pull young people from the hills to the cities. We're trying to build the opposite — real, sustainable work in Uttarakhand, for people who know these mountains best. If you grew up here, love these trails, and want to build something that puts your home on the map, we'd love to hear from you.

Hiking Planet is small, hands-on, and growing fast. Everyone on the team wears more than one hat — you might be leading a trek on Monday and shooting a Reel on Wednesday. If that sounds exciting rather than exhausting, you'll fit right in.

**Rooted, Not Remote**

Work from your own village — no need to move to a city for a real career.

**Learn By Doing**

Real responsibility from day one — treks, content, bookings, partnerships.

**Grow With Us**

We're early-stage — join now, and grow into bigger roles as we scale pan-India.

"We are a bunch of committed individuals who love to work as a team, with Uttarakhand at their heart. We firmly believe we are going to be the agents of change in Uttarakhand — and we're looking for people who want to be that too."

— THE HIKING PLANET TEAM
